

Dear students,

In the prevailing Corona pandemic situation, NIFTEM is making all efforts to provide support for students to learn the subject online and through different online links for which a notice has been displayed on the institute website.

It has come to the notice of the the administration, that a few students have created a problem (mischief and sharing objectionable material) with their female colleagues during one of the ZOOM sessions (BTech 2<sup>nd</sup> year) on 14/4/2020. In this regard, a complaint has been received by the administration. The same is being enquired by our grievance cell with the help of IT team.

Therefore, it is advised that the students should NOT create any problem (unnecessary sound/audio statement/ written statement/video clip, etc.), which is unaccepted practice during online classes. Any such activity will not be tolerated and invite penalty to the guilty as per disciplinary norms of the Institute.
