## **ABOUT NIFTEM**

National Institute of Food Technology Entrepreneurship and Management (NIFTEM) was established by Ministry of Food Processing Industries (MoFPI), Government of India on persistent demand of food industry to be an apex body as a one stop solution provider for various problems of the sector. The institute is spread over an area of 100 acres in Kundli, Sonipat (Haryana). The institute has a mandate to serve as a Center of Excellence in the area of Food Technology and Management and work as “Sector Promotion Organization” & “Business Promotion Organization” of the food processing sector. NIFTEM offers academic courses at both undergraduate and post graduate level i.e. B.Tech. (Food Technology and Management), M.Tech. in five specialized areas, i.e. Food Safety & Quality Management, Food Technology & Management, Food Engineering & Management, Food Business Management & Entrepreneurship Management and Food Supply Chain Management. NIFTEM also offers M.B.A (Food & Agri-Business). Besides, NIFTEM has a Center for Food Research and Analysis, (an NABL Accredited laboratory as per ISO/IEC 17025), equipped with latest State of the art equipment for food analysis and five different pilot plants catering to the various food sectors.

## **ABOUT NFSI**

In order to strengthen the food safety commitment in India, Nestlé has established the Nestlé Food Safety Institute, India (NFSI) at Manesar, Haryana. NFSI adopts a holistic and collaborative approach towards ensuring safe food for consumers that will help meet India’s growing demand for healthy and

safe food. It is the local interface of Nestlé global food safety science capabilities, and leverages Nestlé's expertise in food safety for new scientific research partnerships in the country. The major objectives of NFSI, India are:

- Ensure that the broad competences and knowledge within Nestlé are fully leveraged in India and the Region.
- Create scientific knowledge to enable the formulation of effective and implementable risk reduction strategies.
- Engage with concerned stakeholders to share knowledge and information on emerging food safety issues and support a science based policy framework.
- Support knowledge dissemination and conduct training programs.

The Research Agenda & Activities of NFSI majorly comprise of:

1. The capacity building that focuses on: a) External contracts and collaborations/partnerships and b) Training programs
2. The analytical services & data science that provides in-house research on analytical method development and data trending and chemical surveillance by testing of materials for contaminants.
